

Co-funded by  
the European Union

# Objectives

1. Improve the efficiency and reach of youth volunteering by promoting integration, awareness, and empowerment of young people.
2. Boost youth digital volunteering to encourage cross-border volunteering activities. The project views digital volunteering as an opportunity to carry out cross-border activities, potentially inspiring an increase in physical mobility.
3. Foster intercultural dialogue through digital volunteering as a tool for cross-border volunteering.
4. Develop strategies to enhance diversity in the selection of young digital volunteers and increase dissemination and information about volunteering opportunities to promote active citizenship and youth entrepreneurial spirit.
5. Promote the formal recognition of skills and competencies acquired through volunteering, establishing it as a means to foster employability among young people and to drive youth social entrepreneurship.

# Empowering Youth Through Digital Volunteering

VolunTECH is a groundbreaking initiative aimed at enhancing the European youth digital volunteering movement. Our project focuses on empowering young people and volunteer organizations by providing tools and training to create impactful campaigns, attract and retain volunteers, and foster social entrepreneurship.

Through innovative digital platforms and comprehensive training programs, VolunTECH promotes cross-border volunteering, intercultural dialogue, and active citizenship. By recognizing and certifying the skills gained through volunteering, we aim to improve employability and inspire young people to lead positive social change.

Join us in shaping the future of volunteering – digital, inclusive, and impactful!

## Work Packages

### WP1: Project Management

### WP2: Training and Certification of VolunTECH

### WP3: Toolkit for Youth Associations

### WP4: Development of the VolunTECH Platform

### WP5: Dissemination, Communication, Impact, and Sustainability
